PROFESSIONAL SUMMARY

Senior QA Automation Engineer with **6.6 years** of experience across Healthcare, Banking, Wealth Management and Auto Finance building scalable automation with Playwright (Python) and Pytest, backed by SQL and REST API validation. Currently **architecting an enterprise grade framework spanning UI, API, authentication**, configuration management and reporting, while expanding into **AI augmented and agentic testing workflows**.

CORE SKILLS

Automation: Playwright (Python), Selenium WebDriver, Pytest, TestNG, Cucumber, Page Object Model, Factory & Singleton Patterns

Programming: Python, Core Java, SQL, JavaScript (basics)

API & Backend: REST API Testing, Postman, JSON Schema Validation, SQL-DB Validation, Bearer Token & API Key Auth

CI/CD & Cloud: GitHub Actions, Jenkins, Git, GCP Cloud SQL, Google Apps Script

AI: LLM-assisted test generation, Prompt Engineering for test design, Playwright MCP with Claude/Copilot, RAG & AI-agent fundamentals, self-healing test concepts

Practices & Tools: Agile/Scrum, Risk-Based & Data-Driven Testing, JIRA, ClickUp, Confluence, Azure Boards

PROFESSIONAL EXPERIENCE

Senior Consultant | Deloitte Touche Tohmatsu India LLP

Jul 2023 – Present

Client: Amplifon | Enterprise Healthcare Application

Apr 2024 – Present

- Building a production grade Playwright Python framework (**Browser Factory, Auth Manager, Config Manager, Credential Manager, reusable BasePage, Reader Factory**) for enterprise regression.
- Designed and executed 750+ functional, integration, regression, SIT, UAT and production **validation cases across inventory, quotation, contract lifecycle, payment and order modules**.
- Performed SQL and REST API validation (Postman) for backend integrity, payloads and auth. Triageed 200+ defects with root-cause analysis alongside cross-functional teams.

Client: Google India | Vendor Management Portal

Aug 2023 – Mar 2024

- Led a 3-person QA team through planning, execution, defect triage and sprint reporting across Agile sprints.
- Designed 50+ functional and API scenarios validating auth, payloads, status codes and business rules. Built Google Apps Script integrations syncing Sheets with MySQL (GCP Cloud SQL).
- Lifted test coverage by 30% via structured case reviews, catching 10+ critical scenarios pre-release.

Senior Software Engineer | LTIMindtree (formerly LTI)

Nov 2019 – May 2023

Client: Charles Stanley | Banking & Wealth Management, UK

Dec 2021 – May 2023

- Built and maintained 250+ Selenium (Java, TestNG, Cucumber, POM) scripts, reaching 70% regression automation coverage.
- Created **reusable page objects** and utility libraries, cutting duplication; integrated suites with Jenkins CI/CD and Git for branch-based execution.

Client: American Honda Finance | Auto Finance, USA

Dec 2019 – Feb 2021

- Designed and executed 300+ functional, regression, smoke, SIT and UAT cases in Azure DevOps for release readiness.
- Ran requirements and gap analysis surfacing 200+ critical defects pre-production and mentored 5+ QA engineers through project handover.

ENGINEERING PROJECTS

Playwright Python Enterprise Automation Framework

github.com/Priya123z/orangehrm-playwright-python

- Scalable Playwright + Pytest suite (POM, Factory, Singleton) with config, auth management, a CSV, JSON, Excel test-data layer, GitHub Actions CI, trace, HTML reporting and cross browser runs. Now being extended for API automation and security checks.

REST API Test Suite

github.com/Priya123z/api-test-pytest

- Modular API framework with a centralized client, environment aware config, JSON Schema validation, Bearer/API-key auth handling, structured logging and GitHub Actions reporting.

EDUCATION & CERTIFICATIONS

M.Sc. Information Technology

Mulund College of Commerce, Mumbai (Nov 2020 – Feb 2022)

B.Sc. Information Technology

Mulund College of Commerce, Mumbai (Jul 2016 – May 2019)

Google Cloud Certified Digital Leader

Google Cloud ([Certificate](#))
